

Meenakshi Grace

The Meenakshi Grace will be Green Homes. This is a community that has been designed to be Eco Sensitive and blend the best of urban comforts with that of a life away from the hustle and bustle of the city.

Meenakshi Grace are a perfect blend of beauty, simplicity and class. These are homes that enjoy water, greenery and sunshine all-year-round; homes that everyone can dream to own and take pride in. Now, pulling your door shut behind you to stroll to a water body or to the park will become a beautiful habit.

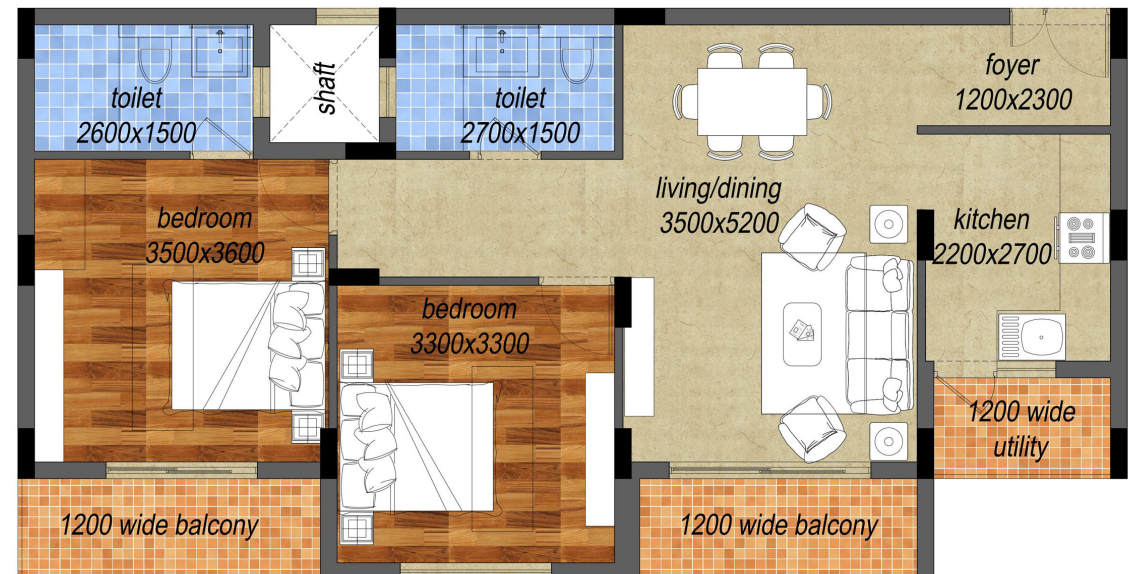

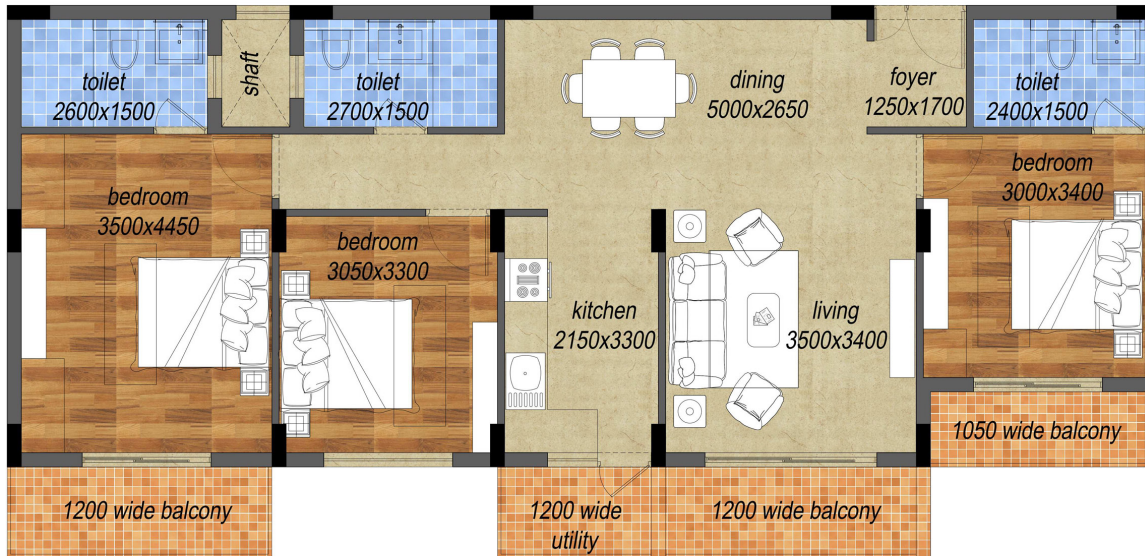

*Where wondrous nature sings lullabies to the land
Where the gentle breeze whispers sweet nothings
Where man and nature exist as one
Come & experience the meditative soul*
